## Solar Energy Direct Uses

**Interested in Going Solar?** Planning on building a new home? What is the path to energy independence for the Alberta homeowner? Interested in greening your job? Solar technologies are rapidly being adopted all over the world and most of them work very well in Alberta. Find out about the latest opportunities in the world of solar energy at an Alberta-specific solar energy technology workshop.

#### In this class you will learn:

- How to plan a solar electric system for your home or business including the basic components, costs and benefits, sources of equipment and installers.
- The design principles and working parts of an Alberta off-grid cabin solar electric system.
- The options and components of a solar hot water system for your home.
- The elements of cold-climate solar home design from an energy efficient house on up to a full net zero energy building.
- A solar greenhouse plan capable of growing fresh produce year round in Alberta.

This is not a hands-on installation course; however, a number of other additional solar applications will be explained including solar water pumping, solar crop drying, solar ovens, solar cars, etc. Equipment will also be demonstrated in class. Students will receive a Solar Energy Society of Alberta certificate of completion.
