## WHY DO AN ENVIRONMENTAL FARM PLAN (EFP)?

- Sustain production
- Manage risks
- Provide a healthy landscape for the next generation
- Maintain market access

Do you have an EFP workbook on your shelf that's half finished? Is it time to revisit and update your EFP or start one for the first time?

**Please contact Kim at 780-387-6182, your County's Sustainable Ag Coordinator, she is ready to help!**

Information contained in the workbook is only shared between the farmers and the EFP Tech. An EFP is relevant to all sizes and types of primary producers.

An EFP is required to apply for On-Farm Stewardship Program funds under Growing Forward 2.
