Rural dugouts: more than just a hole in the ground

A two-part webinar series

Dugouts are an important multi-purpose water source for rural residents. In this **two-part webinar series**, participants will learn about best practices to improve both the quantity and quality of dugout water.

Dates: Wednesdays, Feb. 10 and 17

Time: 7 to 8:30 p.m.

Location: online via Zoom

Register: online at www.leduc-county.com/rural-dugouts

After registering, you will receive a confirmation email containing information about joining the meeting.

Topics will include:

- ▶ **Planning considerations**
regulatory issues, size, location, water supply
- ▶ **Dugout design**
soil texture, side slopes, inlet structures, sedimentation
- ▶ **Construction**
pre-construction testing, liners, excavating equipment, hiring a contractor
- ▶ **Dugout operation and protection**
intake systems, pumps, off source livestock watering systems and potential funding sources
- ▶ **Water quality issues and treatment solutions**
algal blooms, chemical pollutants, livestock run-off, preventative and reactionary measures
- ▶ **Dugouts for stocking fish**
water source testing, ideal water quality, sizing, aeration, predators

This webinar series will be presented by Shawn Elgert, Agricultural Water Engineer with Alberta Agriculture and Forestry, and is offered in partnership between Leduc County, Lac Ste. Anne County, Parkland County and the County of Wetaskiwin.

For more information or registration assistance, contact Kim at kimb@leduc-county.com or **780-387-6182**.
